

RDR52

Drive Close Shoulder

Feature		Advantage	Benefits
A	Integrated blocks with tie bar	High traction enhances block rigidity low rolling resistance	Uniform wear throughout tire tread life
	Optical sipes	Initial traction & Improved heat dissipation	Even wear & long tread life
C	Intricate siping	Improves tread blocks stiffness during acceleration & breaking stable footprint	Even wear & long tread life Higher retreadability
	Stable closed shoulder	Manage weight & torque	Even wear
E	Balanced rib ratio	Even pressure distribution excellent handling	Higher mileage and even wear better driving control
F	Optimized groove angle	Self cleaning less downtime	Improved tread and casing Life

Wear Progression		25%		50%		75%
